ADDRESS 2

CITY, STATE ZIP

Dear Friend and Supporter,

We want to thank you for your generous support and response to the Fall Appeal Letter. Because of this, we plan on completely re-carpeting the dining hall the first of June, upon Summer Break.

Since what we are doing is not all about brick and mortar, we also want to share some current events;

- The total students for this year reached 563! The Academy, in addition to this, is at 220. (Pray for more room.)
- The **Christian Worldview Scholarship** has played a significant part in reaching students who would be tempted to just attend a local, tuition-free junior college to begin their education. Under the Christian Worldview Scholarship, first-year students attend **tuition-free after applying** Pell Grants and other scholarships.
- Along with this, **we are still the most affordable**, regionally accredited, Bible college in America!

We were blessed to feel God's presence and help in the opening revival, preached by Rev. Solomon Shaffer. We called on volunteers to join in a 21-day fast of meals or something enjoyed, and we are sure that God did respond to our seriousness in this matter.

We have an exciting new partnership in education: Through the **Gateway Community and Technical College**, students can now transfer a year's worth of GBSC credits to graduate with a degree in HVAC/ Welding/ Electrical, etc. This provides opportunities for those

who are not called to traditional ministry positions. You see, we believe that every believer regardless of their occupation needs to have a biblical worldview - and thus make an impact on their world for Christ. And we are proud of our alumni around the world who are doing just that in pulpits, classrooms, mission fields, hospitals, court rooms, factories, and a long list of other occupations - all making a difference for HIS kingdom!

Will you continue to partner with us as we train men and women to do the work of ministry?

Right now we have had several unexpected needs. We have had to replace an engine on one of our PR vans. Another van had to have a transmission replaced. The cost of these two major repairs are over 10,000. We are also needing to replace our security golf cart. It has served us well but the time has come to replace it. We also recently had to replace a computer server on campus.

**All of these needs total more than \$25,000!**

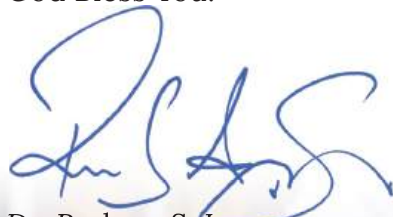

Will you help us?

**Good news! We have a donor who will match dollar for dollar up to \$10,000 for these projects!**

Thank you again for carrying the load with us. You are making a huge difference in the kingdom.

God Bless You!

Dr. Rodney S. Loper  
President
