

# YOU MADE THIS POSSIBLE!

March 1, 2025

Dear \_\_\_\_\_,

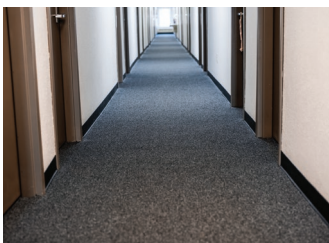

We are thrilled to share the following improvements:

## Beauty and Function

- **New Carpet in Girls' Dorm Halls:** Ensures a welcoming and well-maintained living area.
- **New Carpet in the Dining Hall:** Creates a more inviting and comfortable environment for students and faculty to gather and enjoy meals together.
- **New Sitting Wall on the South Lawn:** Designed by our very own professor, Dr. Steve Oliver, adds beauty and function to our historic campus.

## Safety through Security

- **New Safety Gates:** Unexpected and wrong-way traffic threatens the lives of both children and adults.
- **Campus-Wide Camera System:** Enables us to keep eyes on the whole campus, **monitoring real-time threats and recording incidents.**

# The Chapel Experience

At the heart of GBS's campus experience is the historic chapel where, through music, fellowship, and ministry, young lives are touched for time and eternity.

While we love the ambience of the chapel, decorated with pillars, portraits, and arched, stained glass windows, our technology needed a face-lift.

## Updated Lighting

To improve our **live- stream and in-person experience**, and cut our **energy usage** by an astounding **80-90%**, we now have state-of-the-art LED stage and auditorium lighting. A **brand-new wireless control system**, complete with PC and light board provides greater *flexibility, precision, and creative possibilities* in lighting design.

## Next Step: Audio

At the cost of **\$35,000**, this upgrade will significantly improve overall sound quality and train students to gain hands-on experience in audio engineering and technical production.

- **New Sound Consoles:** Clearer, high-quality audio for worship and livestream.
- **Upgraded Amplifiers & Digital Rack:** Reliable, consistent sound for services and events
- **Multitrack Recording Capabilities:** Capturing services and special moments in professional quality.

Would you prayerfully consider a generous gift of \$250, \$500, or even \$1,000 to help us reach this goal?

Sincerely,

Michael Yancey, Jr.  
Director of Donor Relations
